

Case and prediction	Original ultrasound	Clinician annotation	Model localization
(a) Correspondence Score: reference 2.4 / predicted 2.409 True view: Left subcostal transverse plane (left lobe and sagittal segment of portal vein) Predicted view: Subxiphoid sagittal plane (left lobe of the liver)			
(b) Correspondence Score: reference 2.2 / predicted 2.367 True / predicted view: Right subcostal plane (second porta hepatis and confluence of three hepatic veins)			
(c) Correspondence Score: reference 1.8 / predicted 1.938 True / predicted view: Right intercostal oblique plane (right hepatic lobe, portal vein, gallbladder)			
(d) Extent expansion Score: reference 1.4 / predicted 1.491 True / predicted view: Subxiphoid sagittal plane (left lobe of the liver)
